

Hridhikjal S B

Data Analyst

Address: Karnataka

Phone: +91 70342 00387

Email: hridhikjal123@gmail.com

Professional Summary

Aspiring Data Scientist with a strong foundation in machine learning, Python, and deep learning. Passionate about leveraging data to solve real-world problems through analytical thinking and technical expertise. Proficient in data science tools and methodologies with hands-on experience from internships and personal projects.

Work Experience

Data Science Intern

Luminar Technolab, Kozhikode, Kerala

Sep 2023 – Mar 2024

- Gained practical exposure to real-world data science applications.
- Worked on end-to-end data processing and model development tasks.

Education

- M.Sc. in Data Science – Jain University, Bangalore (Expected 2025)
- B.Sc. in Mathematics – SN College, Kannur, Kerala (May 2020)
- Higher Secondary (Science) – PRMHSS, Kannur, Kerala (May 2018)

Certifications

- Data Science – NACTET (Aug 2024)
- Business Analysis & Process Management – Coursera (May 2025)
- Data Warehousing Essentials and DMBOK – Coursera (Dec 2024)
- Data Visualization Using Python – Infosys (Dec 2025)
- Bachelor's in Mathematics – SN College (May 2020)

Skills

- Programming & Tools: Python, R, MySQL, Streamlit
- Data Handling: Data cleaning, wrangling, ETL processes
- Machine Learning: Decision trees, neural networks, unsupervised learning
- Advanced Techniques: deep learning
- Visualization: Data visualization and presentation
- Soft Skills: Analytical thinking, problem-solving

Languages

- English
- Malayalam
- Hindi
- Tamil

Projects

Loan Eligibility Prediction System (Machine Learning + Streamlit)

- Developed a web app using ML models to predict loan eligibility based on user demographic and financial data.
- Included preprocessing, feature selection, model evaluation, and Streamlit deployment.
